Reply to Office Action of March 31, 2006

**REMARKS**

**Reconsideration And Allowance  
Are Respectfully Requested.**

In accordance with the Response to Restriction Requirement filed herewith, claims 1-5 and 9-19 are currently pending. Claims 6-8 have been withdrawn from consideration. No new matter has been added. No new claims have been added. Entry of the present amendment prior to examination upon the merits is respectfully requested.

While preparing the Response to the Restriction Requirement of March 31, 2006, Applicant determined that Figure 22 was not included with the application as published. As a review of the application as filed will certainly show, Figure 22 was part of the drawings originally filed with the application on October 15, 2003. Based upon our review of the PAIR system, Figure 22 is missing from the replacement drawings filed March 3, 2004. As such, Applicant submits a new replacement sheet for Figure 22. As this is not new matter, Applicant respectfully submits that this figure be entered and that the records of the U.S. Patent and Trademark Office be updated.

With regard to updating, Applicant has also taken this opportunity to update the "Cross Reference to Related Applications" section of the present application. As such, the claim of priority has been updated to fully reflect the applications upon which priority is claimed. As such, Applicant also respectfully requests the U.S. Patent and Trademark Office records be updated.
